

## THE GREAT DAY OF CREATION

Everything has a "beginning"--even the universe. Gen.1:1..(GOD) [pl. Jehovah, Word, Spirit). Gen.1:2, 26..FORESHADOW..godhead in scheme of redemption,..  
**F.**Jn.3:16; Ep.3:10..**S.**Mt.26:28; 16:18..**HS.**Ac.2; 1Co.2; 2Ti.3:16f

### CREATION:

**Began w/ God.** Gen.1:1; Ex.20:11; Pr.3:19f; 8:22-31; Ps.33:6-9;  
He.,11:3; Ro.1:20; Mt.19:4,8

**End w/ God.** Mt.24:35; He.1:10-12; 2Pe.3:5-7, 10f

### THE CREATION.

1)BEGAN w/ lifeless mass. Gen.1:2

a. Out of the earth came: **Order, Veg. Life, human life** (body, Gen. 2:7) and **animals**.

b. NOT out of the earth came: **Light, souls, solar system, gravity.**  
Job 26:7-14

2) IMAGINE being there, witnessing the creation....angels..

(seeing light beginning,stars, sun, & moon) veg. Spring up

a. Some scientists deny the creation, Bible, existence of God.

b. CLAIM "evolution" is the ANSWER.

**REVIEW** - CONCEPT of some "glob"....accident...evolving..billions of yrs...

**HOW** did IT become "living matter"?

1) Did it KNOW..need..legs..hands..feet..eyes..digestive system..?

2) WHERE did it get its "mind" to KNOW these things??

a. In what **language** did it think these things?

b. How was "it" going to reproduce in life's evolution?

c. Was it going to wait for another "glob" to have an accident so  
as to have a mate for reproduction?

d. Was it "male" or "female"?

e. Would it have to wait billions of years for this to happen?

f. Did it separate into 2 parts to intentionally begin evolution?

g. How was it nourished to stay alive?

h. If it ever HAD any life in it, from where did it come?

**BUT**, the "educated" evolutionary scientists say it was NOT a "**glob**",  
but a "bacteria"--so small it could not be seen with the naked eye.

**REVIEW Internet material.**
