

PRECIOUS LETTERS

I recently came across four letters that my wife and I had saved. One letter was one I wrote to an uncle and his family while I was stationed in Korea in 1953. I do not recall as to why I came to possess this letter. A second letter was from my mother in 1969 after my family and I moved to Sherman Texas to begin working with a congregation there. A third letter was written by my mother in 2011, after she was 100 years of age. A fourth letter was another letter from my mother later in 2011 to Jewel, who was about to become my bride. We cherish these letters, as they are very readable and are precious in our sight.

This reminds me of the Bible. It is a book of letters that God has caused to be written to people in different ages and different parts of the world. The Bible is precious in the eyes of those who love God and His word. It tells about the precious Son of God who offered His precious blood for our salvation, and contains a record of His precious promises.

Now let's examine the Precious Written Word of God.
